California Chiropractic Association Releases

Pro-Chiropractic Election Results

Sacramento, CA (November 15, 2016)—The California Chiropractic Association (CCA) released the 2016 Voter's Guide Election Results today, which reveals which newly elected legislators were endorsed by CCA. The nonprofit, statewide organization put tremendous resources into endorsing candidates who have a committed interest in safe and effective options for overall health and wellness.

"Thousands of chiropractors' voices were heard in this election," said Cris Forsyth, CCA's Director of Government Affairs. "We are very pleased with the election results, which produced a 95 percent win rate in the Senate and a 90 percent win rate in the Assembly. This is a big win for chiropractic and a huge step forward for the general public, who increasingly demand safe, effective and drug-free approaches to healing and general health and wellness."

CCA congratulates, in particular, the following elected officials and thanks them for their support of chiropractic care:

- Senator Jim Beall, SD 15
- Senator Anthony Portantino, SD 25
- Senator Nancy Skinner, D, SD 9
- Assembly member Anna Caballero, AD 30
- Assembly member Ash Kalra, AD 27

The CCA Voter's Guide Election Results are available by clicking [here](#). For more information on how the election impacts chiropractic, please contact Cris Forsyth at cforsyth@calchiro.org.

About California Chiropractic Association:

Established in 1928, the California Chiropractic Association (CCA) is a nonprofit organization that supports thousands of chiropractors and students across California. With 29 districts throughout the state, CCA is committed to its members by offering CARE: Community, Advocacy, Resources and Education. For more information about CCA, please visit www.calchiro.org or call 916-648-2727.
